

- + Independently Dimmable LED Fixture that can be fed with low voltage, 120, 277 VAC or 12 VDC (battery). Daisy-chain OK
- + Safe for Children, Animals, Clothes, Valuables
- + Modular design allows easy installation of LED module and screwless Face Plate, which is field paintable
- + Durable - No Maintenance – No Filament to Break
- + No Heat or UV from Light Beam
- + IC Rated, Clearances NOT Required
- + Energy Efficient + Environment Friendly
- + 50,000 hour minimum half-life
- + New Construction Wiring Box has adjustable mounting tabs and two 1/2" KO's. Remodel Box (RV) used to swap out existing low voltage or line voltage fixtures/outlet boxes
- + Warranted 5 Years – Made in the U.S.A.

LED Model #	Wall or Ceiling
<b>BV</b>	Indoors Only
	Damp Location OK
	Remodel Box (RV)
Face Plate	White (Standard)
	Gray (GY) *
	Black (BK) *
Lens	Clear (Standard)
	Frosted (F)
Reflector	Stepped (Standard)
	Mirror (M)
Voltage In	Remote 12 VAC or VDC (Standard)
	Remote Driver (D)
	120 volt (120)
	277 volt (277)
LED Color	White (WH), Warm White (WW),
	Blue (BL), Red (RD), Cyan (CY),
